Rooster tracing and cutout studies

ex2-0788 / LETTER / Instructions

PURPOSE

Original rooster studies for tracing, coloring and loose paper cutouts. Includes a rearing profile, a comb-and-wattle front and a solid shape.

DRAWING FACTS

- Rearing profile: 150, 100 and 50 mm longest-axis versions.
- Comb-and-wattle front: 150, 100 and 50 mm longest-axis versions.
- Solid side or dorsal shape: 150, 100 and 50 mm longest-axis versions.

MATERIALS

Plain paper or suitable card; pencil, ruler and scissors.

HOW TO USE THESE PAGES

1. Choose the view and paper size. Print at actual size (100%) and measure the 50 mm bar.
2. Trace or color interior marks. For loose cutouts, cut the outer contour only.
3. Trial-cut the small comb, wattles and toes on real paper. Use a larger view if a join fails.

LIMITS AND CHECKS

- Stylized craft drawing; not a species-identification or anatomy reference.
- Loose cutout art is not a cutter-ready stencil.
- Trial: Measure the 50 mm version and test thin joins with real paper and scissors.

50 mm print check

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.
