MATERIALS

Paper for tracing or coloring; suitable card for loose cutouts; pencil, ruler and scissors.

HOW TO USE THESE PAGES

1. Choose a view and size. Pages 1-4 are outlines; pages 5-6 use the side solid.
2. Print the correct paper edition at 100%. Measure the 50 mm reference bar.
3. Trace the outside edge. Skin folds, fur and hoof marks are drawn details, not cuts.
4. For a loose cutout, cut around the outer contour and keep small parts joined.
5. Draw skin folds and toes; keep the horns and ears joined in a loose cut.
6. Use a larger size for thick card; keep tails, ears and leg joins broad.

BEFORE YOU CUT

Two nasal horns, a shoulder hump and thick legs mark this rhinoceros.
These are stylized craft studies, not anatomy or identification references.
Try one small cut on your chosen paper or card before making repeat copies.
A loose cutout is not a bridged stencil. No cutting-machine compatibility is claimed.
Check the 50 mm bar and the small joins on your own printer and material.
