Aardvark tracing and cutout studies

Aardvark side profile / trace inner marks; cut only the outside edge

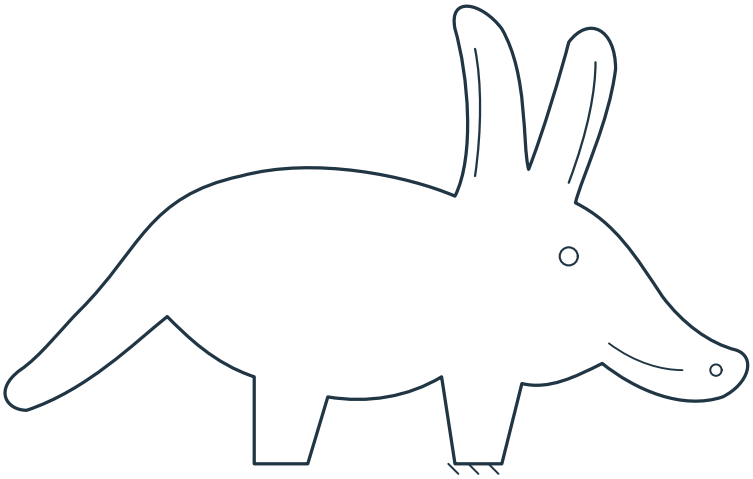

150 mm side profile - long snout, upright ears and tapering tail

Keep the feet, ears and tail attached when cutting.

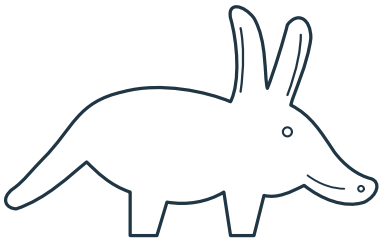

50 mm scale check / print at actual size (100%)

Aardvark tracing and cutout studies

Smaller side profiles / trace details or cut the outer edge

100 mm longest axis

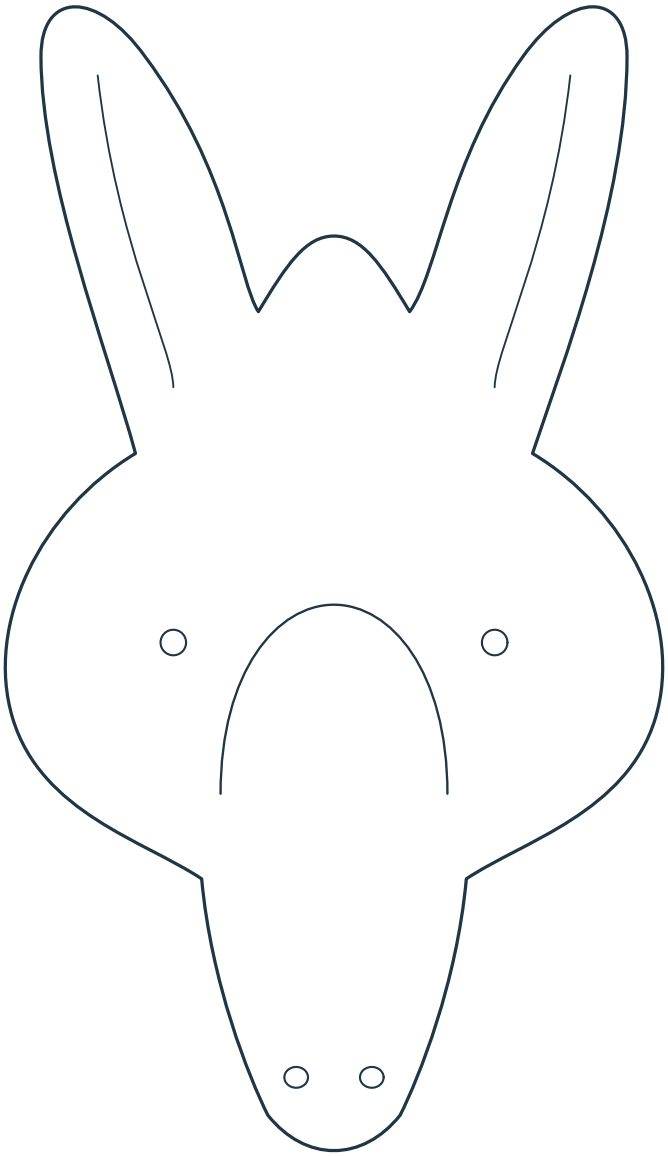

50 mm longest axis

50 mm scale check / print at actual size (100%)

Aardvark tracing and cutout studies

Front view / long narrow muzzle and terminal nostrils

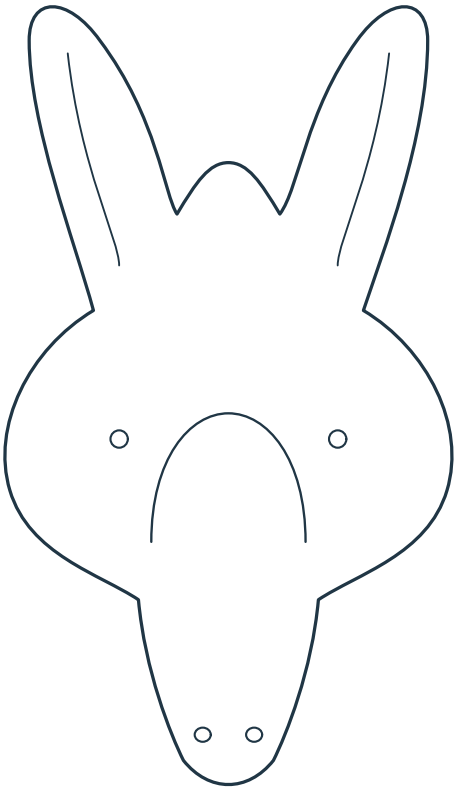

Trace the face. This page is a drawing guide, not a cut pattern.

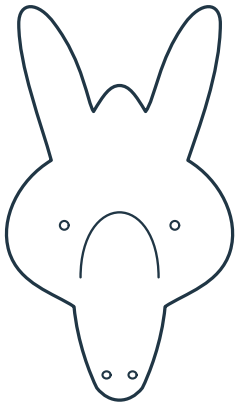

50 mm scale check / print at actual size (100%)

Aardvark tracing and cutout studies

Smaller front views / trace the face and ears as drawing guides

100 mm tall

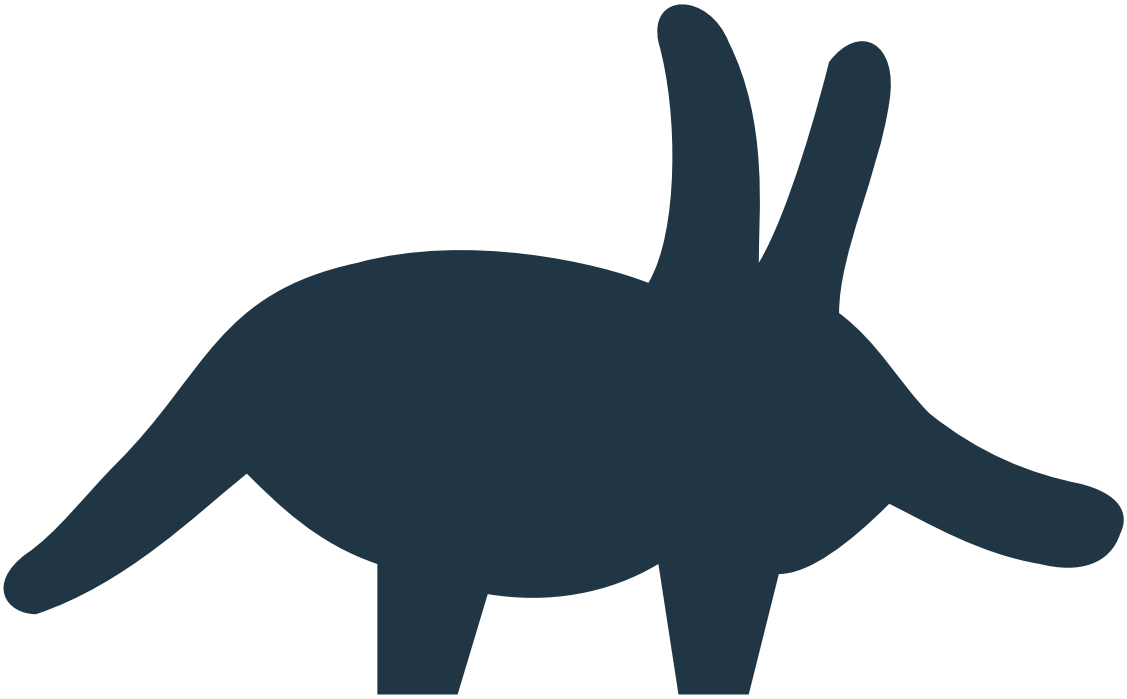

50 mm tall

50 mm scale check / print at actual size (100%)

Aardvark tracing and cutout studies

Solid silhouette / use as a broad outside-only cutout

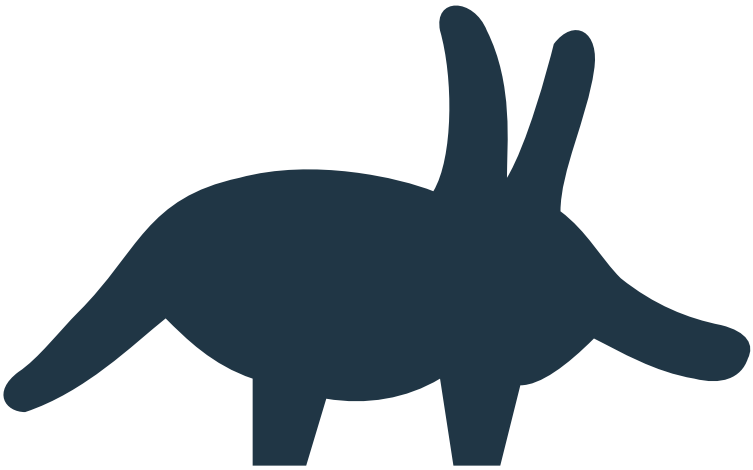

A solid mask for layering or broad outside cuts.

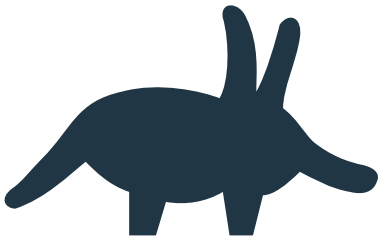

50 mm scale check / print at actual size (100%)

Aardvark tracing and cutout studies

Smaller solid silhouettes / avoid fragile ears and feet

100 mm longest axis

50 mm longest axis

50 mm scale check / print at actual size (100%)

Aardvark tracing and cutout studies

How to use the profile, front view and solid masks

PURPOSE

Trace or color the subject-specific aardvark views.

The side outline may be used for loose paper cutouts.

START HERE

Print the matching paper edition at actual size (100%).

Measure the 50 mm line with a ruler before using the art.

Begin with the 150 mm profile and trace its long muzzle, ears and tail.

CUTTING NOTES

Cut the exterior of a side profile or solid mask only.

Inner face lines, eyes and feet are drawing marks, not cuts.

The 50 mm copies are best for tracing; keep narrow parts attached when cutting.

PRINT AND CUT NOTE

This design was reviewed digitally; physical printing and cutting were not tested.

50 mm scale check / print at actual size (100%)
