MATERIALS

Paper for tracing or coloring; suitable card for loose cutouts; pencil, ruler and scissors.

HOW TO USE THESE PAGES

1. Choose a view and size. Pages 1-4 are outlines; pages 5-6 use the side solid.
2. Print the correct paper edition at 100%. Measure the 50 mm reference bar.
3. Trace the outside edge. Interior marks are drawing details, not extra cut paths.
4. For a loose cutout, cut around the outer contour and keep small parts joined.
5. Draw fine legs and feelers; cut the broad joined contour, not each nub.
6. Use a larger size for thick card. Fine marks are drawing details.

BEFORE YOU CUT

Segments, rostrum, antennae and a tail fan identify this prawn.
These are stylized craft studies, not anatomy or identification references.
Try one small cut on your chosen paper or card before making repeat copies.
A loose cutout is not a bridged stencil. No cutting-machine compatibility is claimed.
Check the 50 mm bar and the small joins on your own printer and material.
