Tricycle tracing and cutout studies

ex2-0975 / A4 / Side outline / 150 mm

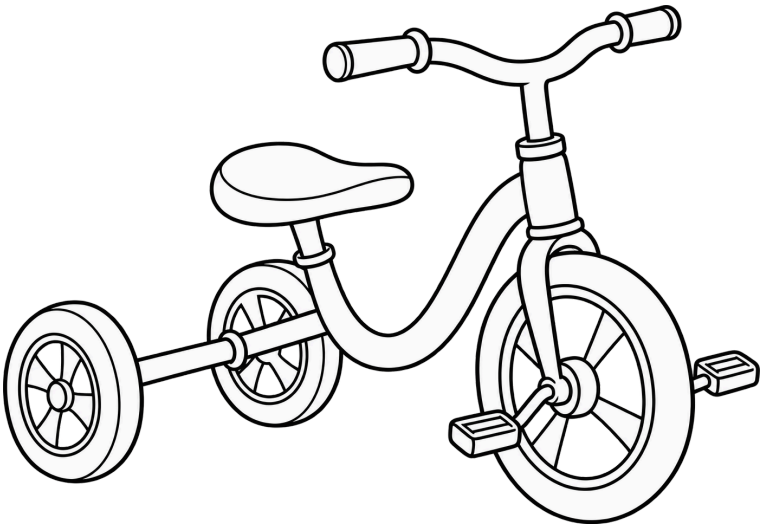

Longest drawing axis: 150 mm. Bounds: 150.0 x 102.9 mm.

50 mm print check

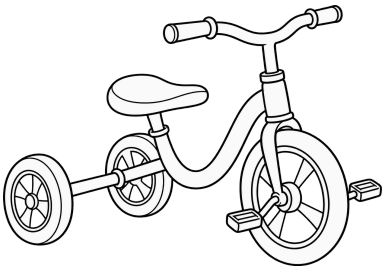

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.

Tricycle tracing and cutout studies

ex2-0975 / A4 / Side outline / 100 + 50 mm

100 mm longest axis

50 mm longest axis

Same design, measured sizes - not fitted to paper.

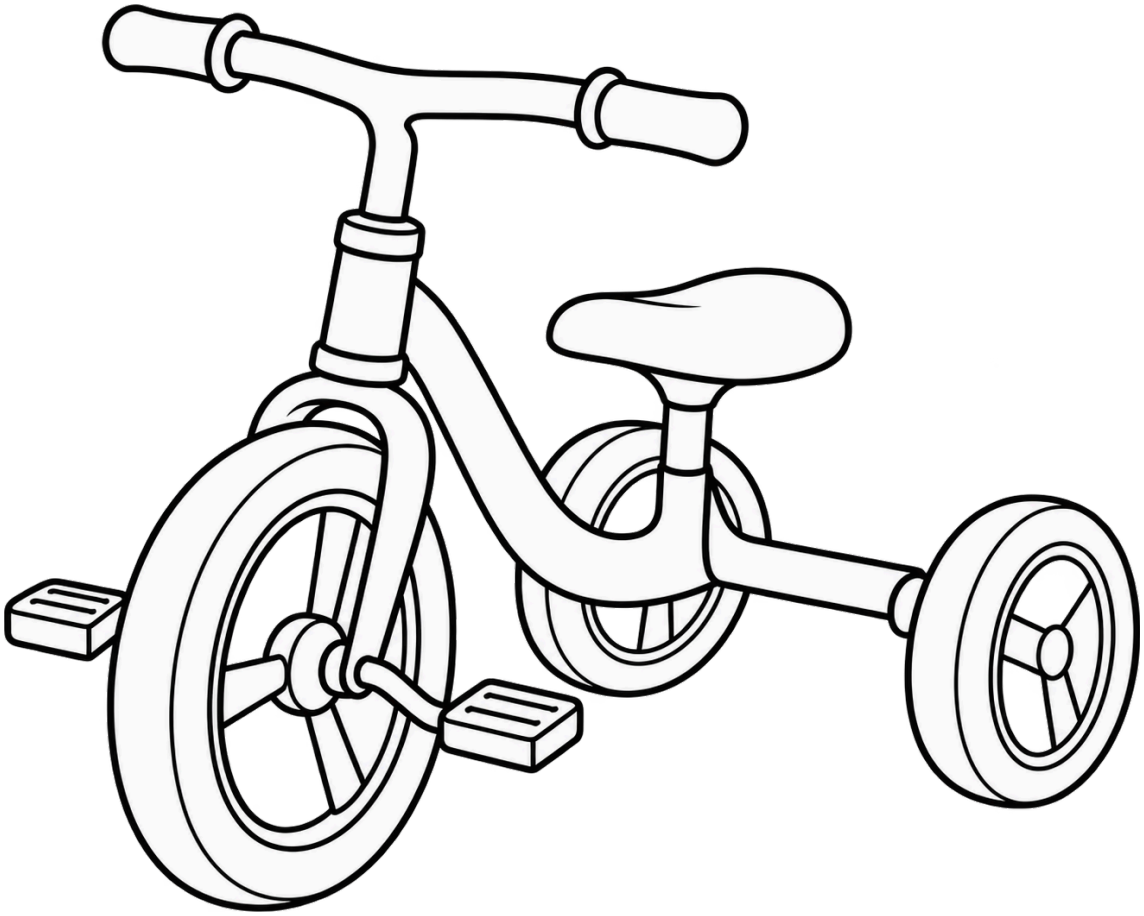

Outline details are drawing lines, not extra cut instructions.

50 mm print check

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.

Tricycle tracing and cutout studies

ex2-0975 / A4 / Front three-quarter complete tricycle / 150 mm

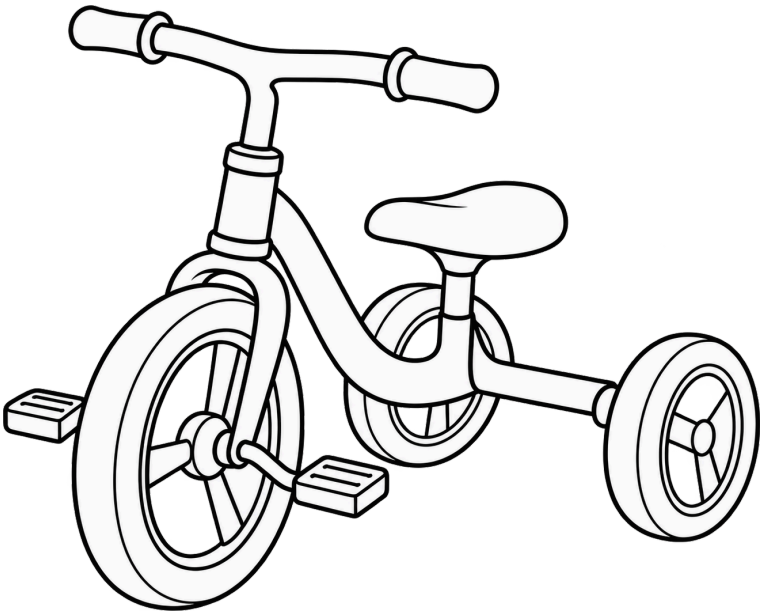

Longest drawing axis: 150 mm. Bounds: 150.0 x 120.0 mm.

50 mm print check

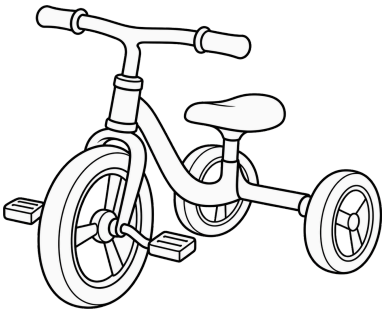

Print at actual size / 100%. Disable fit-to-page.
Use the paper edition that matches the printer tray.

Tricycle tracing and cutout studies

ex2-0975 / A4 / Instructions

PURPOSE

Original stylized tricycle views for tracing, coloring and loose paper cutouts.
Both views show all three wheels of one tricycle from different angles.

DRAWING FACTS

- Side outline: 150.0 x 102.9 mm at 150 mm; 100 and 50 mm versions included.
- Second outline: 150.0 x 120.0 mm at 150 mm; 100 and 50 mm included.

MATERIALS

Paper for tracing or coloring; suitable card for loose cutouts; pencil and scissors.

HOW TO USE THESE PAGES

1. Choose a view and size. Pages 1-4 are outlines; page 5 has instructions.
2. Print the correct paper edition at 100%. Measure the 50 mm reference bar.
3. Trace the outer edge. Wheel spokes and frame lines inside the outline are drawing detail.
4. For a loose cutout, keep the frame and all three wheels joined.
5. Draw spokes, pedals and grips as detail; cut a broad joined outer contour.
6. Use a larger size for thick card; simplify narrow corners as needed.

BEFORE YOU CUT

One large pedaled front wheel and two separate rear wheels identify this tricycle.
These stylized craft studies are not vehicle safety references.
Try a small cut on your chosen paper or card before making repeat copies.
A loose cutout is not a bridged stencil or a cutting-machine pattern.
Check the 50 mm bar and narrow joins on your printer and material.
