Trombone tracing and cutout studies

ex2-1049 / LETTER / Instructions

PURPOSE

Original stylized trombone views for tracing, coloring and loose paper cutouts.
The side and three-quarter drawings show one trombone from two angles.

DRAWING FACTS

- Side outline: 150.0 x 48.0 mm at 150 mm; 100 and 50 mm versions included.
- Second outline: 150.0 x 95.3 mm at 150 mm; 100 and 50 mm included.

MATERIALS

Paper for tracing or coloring; suitable card for loose cutouts; pencil and scissors.

HOW TO USE THESE PAGES

1. Choose a view and size. Pages 1-4 are outlines; page 5 has instructions.
2. Print the correct paper edition at 100%. Measure the 50 mm reference bar.
3. Trace the outer edge. Braces and tube lines inside the outline are drawing detail.
4. For a loose cutout, keep the bell, tubing and slide visually joined.
5. Draw braces and slide tubes as interior lines; cut a broad joined outside contour.
6. Use a larger size for thick card; simplify narrow corners as needed.

BEFORE YOU CUT

The broad bell and long movable U-shaped slide identify this trombone.
These stylized craft studies are not instrument assembly references.
Try a small cut on your chosen paper or card before making repeat copies.
A loose cutout is not a bridged stencil or a cutting-machine pattern.
Check the 50 mm bar and narrow joins on your printer and material.
