Winter Warmth coloring scene collection

ex2-1339 / LETTER / Instructions

PURPOSE

Four original winter warmth coloring compositions: A warm corner, Winter comforts, Window light, Home for the evening. Large scene panels keep room for coloring rather than filling every gap with repeated motifs.

DRAWING FACTS

- Four distinct scene panels, each 184 x 174 mm. Letter and A4 preserve the same panel size.

MATERIALS

Paper and colored pencils or crayons; a ruler for the 50 mm print check. Use media suited to your paper.

HOW TO USE THESE PAGES

1. Choose a scene rather than printing the whole packet automatically. Each composition uses a different arrangement and focal subject.

2. Print the matching paper at actual size. Trace onto another sheet or color directly on the print.

3. Keep the outer border as a drawing frame. The interior art is not a cut-every-line construction template.

4. Test coloring materials on a spare sheet or the margin. Choose pencils or crayons for small areas.

LIMITS AND CHECKS

- Look over the small areas before coloring. Use a finer point where outlines sit close together.
- Color within the visible outlines or add your own colors. No cutting or folding is needed.
- Check: Confirm the reference bar and stated panel sizes.
- Check: Make sure outlines and small spaces stay visible as you add color.

Print at actual size / 100%. Disable fit-to-page.
