Two-piece gift box with lid

BASE / shaded corners are joining tabs

Base: 76 x 54 mm panel, 23 mm walls, four corner tabs.

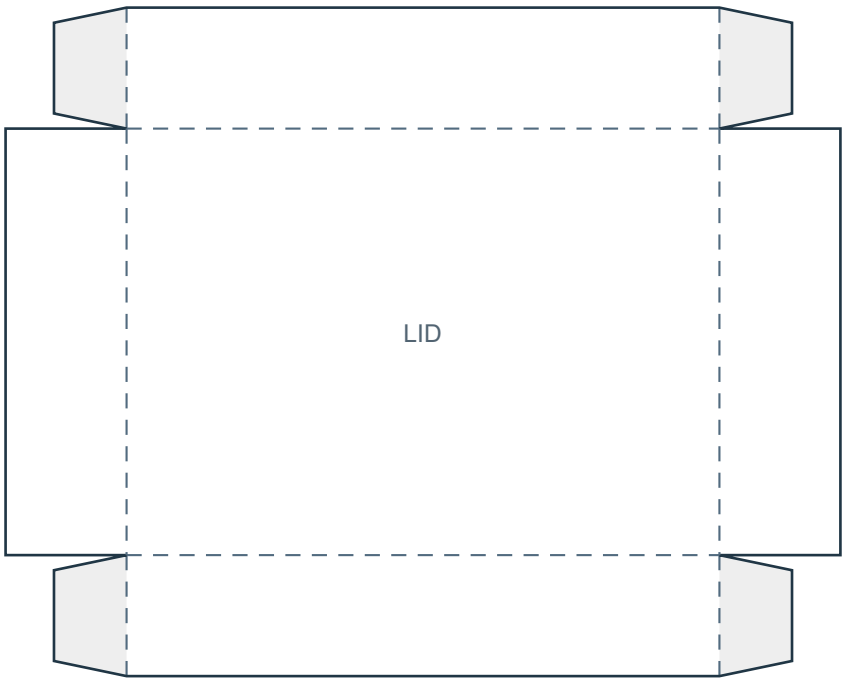

Cut the outer contour; crease dashed lines; keep tabs attached.

Shaded tabs join behind neighboring walls after dry-fitting.

50 mm scale check | Measure after printing

Two-piece gift box with lid

LID / separate net, nominal clearance only

Lid: 78.4 x 56.4 mm panel, 16 mm walls, four tabs.

Nominal allowance is 1.2 mm per side before folds and stock.

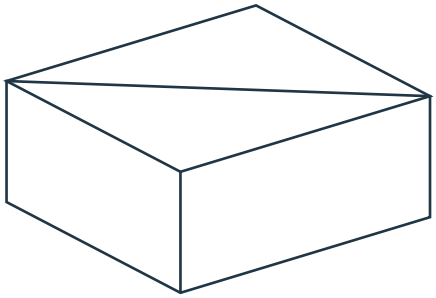

Cut and assemble separately; do not force the lid onto the base.

Two-piece gift box with lid

Assembly / solid: cut / dashed: fold / shade: glue

FINISHED VIEW / SCHEMATIC, NOT A CUT PATTERN

BASE / four walls, four tabs

LID / slightly wider, shallower

Assemble separately; dry before fit.

01 / SORT

Print both nets at actual size. Measure each 50 mm line. Keep BASE and LID apart.

02 / CUT

Cut each solid outer contour. Keep all four shaded corner tabs on each net.

03 / CREASE

Crease each dashed line. Raise four walls with printed marks on the inside.

04 / DRY-FIT

Bring each tab behind its next wall. Check square corners and level top rims.

05 / JOIN

Glue four base tabs, then four lid tabs. Let both pieces dry separately.

06 / FIT

Place the dry lid on gently. Record binding, looseness, bow and wall gaps.
