How to play

Four boards | matching caller set | how to play

Prepare one matching set

Print only the numbered boards you need (pages 2-5). Give each player a different board.

Print the matching caller page once (page 6). Cut apart its 24 solid card edges.

Use counters, small coins or pencil dots to mark pictures. Mark the center FREE square.

Keep this four-board caller set with these boards; the 30-player set uses different pictures.

Call and mark

Shuffle all 24 caller cards. Draw one card at a time without replacement.

Show the picture and read its exact label. Players mark the matching picture.

Keep every drawn card visible so everyone can check a claimed winning row.

Check a winning row

The first player to cover five across, down or diagonally calls BINGO.

The FREE center counts as covered from the start.

Check all five squares against the visible drawn cards before announcing the winner.

If players finish on the same call, they share the win.

Play again

Clear counters or use fresh board copies. Gather and reshuffle all 24 caller cards.

Start a new round with the center FREE square already marked.

PARTY GAME

halloween picture bingo

Card 1 of 4 - 24 unique symbols plus a free center.
